### SUMMARY

Senior Product Designer with 8+ years across enterprise SaaS, PaaS, and IoT — blending product thinking, design systems, and end-to-end execution. Sole designer on a multi-tenant IoT platform serving U.S. enterprises in utilities, energy, water, and logistics. Architect of a mobile design system spanning iOS and Android. Strategist by instinct, AI-augmented in practice — custom Claude skills, MCP workflows, and market framing in every surface shipped.

### EXPERIENCE

#### Senior Product Designer

Apr 2021 — May 2026

*Hash8.io · Promoted from UX / Product Designer*

- Sole Product Designer for AssetIQ — a multi-tenant IoT platform spanning five vertical applications (LiftIQ, ReeferIQ, CloudIQ, TankIQ, FlowIQ) — scaling ARR from \$60K to \$200K+ across U.S. enterprises in utilities, energy, water, and logistics.
- Architected **Geist**, a mobile-first design system unifying iOS and Android delivery; shipped to production with CloudIQ and structured to scale across four additional applications without rework.
- Owned end-to-end product design — discovery, research, information architecture, prototyping, and usability testing — for U.S. enterprise customers in regulated industries.
- Partnered with the founder and engineering on architecture and market framing — translating multi-tenant complexity into role-based user flows across five verticals.

#### UX / Product Designer

Jul 2018 — Mar 2021

*Teezle · Progressed from UI Trainee › Marketing Analyst*

- Designed the **Autocavo CSBS Dealer Portal** end to end — owning user flows, information architecture, wireframes, and visual design for a B2B platform connecting auto dealers and service partners.
- Drove market intelligence and product positioning — competitive analysis across the connected-vehicle telematics sector, investor-facing pitch decks, and a published **Solution Management whitepaper** distributed via HubSpot.

### SKILLS

#### DESIGN & RESEARCH

End-to-end product design · User research · Information architecture · Wireframing · Prototyping · Usability testing · Interaction design · Service design · Customer journey mapping · Mobile design (iOS & Android) · Enterprise SaaS UX

#### SYSTEMS & STRATEGY

Design systems · Component libraries · Design tokens · Product strategy · Design strategy · Competitive analysis · Market framing · Cross-functional leadership · Stakeholder management · Engineering handoff

#### AI & EMERGING

Claude · ChatGPT · Figma AI · v0 · Cursor · Custom Claude skills · MCP workflows · Prompt engineering for design · AI-augmented design

#### TOOLS

Figma · FigJam · Adobe XD · Whimsical · Notion · Obsidian

### EDUCATION

**B.E. Electrical & Electronics Engineering** · Ramco Institute of Technology · 2018 · CGPA 8.1
